01 EASY GUEST MANAGEMENT

Less confusion. More control.

Most of a hostel owner's day disappears into three questions — who's in, who's out, and who hasn't paid. Kamer turns all of it into a few taps, so nothing slips through the cracks and no rent goes uncollected.

Before Kamer

- ✕ Bed occupancy tracked in a **register & your memory**
- ✕ Rent chased over **WhatsApp and awkward calls**
- ✕ No clear answer to **"who owes how much?"**
- ✕ Records stuck at the desk — **nothing when you're away**

With Kamer

- ✓ **Live bed map** — every bed, free or occupied, at a glance
- ✓ **Automatic rent invoices** & reminders on the due date
- ✓ **One-tap check-in, move-bed & vacate** with deposits
- ✓ Every record **in your pocket** — even away from the desk

"I stopped keeping the register within a week. Now I can see every bed and every pending rent from my phone — even when I'm not at the hostel."
